

# GLOWFOOD<sup>®</sup> LINE

WHOLE  
FOOD SOURCES  
FOR GLOWING SKIN

*"A HEALTHY OUTSIDE STARTS FROM THE INSIDE"*

AKOTT HAS DEVELOPED A NOVEL **SUSTAINABLE EXTRACTION TECHNOLOGY** TO LAUNCH A UNIQUE LINE OF **AGRICULTURAL ORGANIC INGREDIENTS** FROM **WHOLE FRUITS** (WHOLEFRUIT Line), **HERBS** (WHOLEHERB Line) **AND VEGETABLES** (WHOLEVEG Line) TRADITIONALLY USED FOR HEALTH AND NUTRITION.

## WHOLEFRUIT LINE

Inspired by eating seasonal fresh fruits as the key for glowing skin and vibrant hair, Akott develops an environmentally **SUSTAINABLE FRESH FRUIT PRODUCTS LINE** using every single part of the fruit: **PEEL, PULP AND WATER**.

## WHOLEHERB LINE

Inspired by the wisdom of Nature, Akott carefully selects and uses **LEAVES, FLOWERS AND ROOTS** from culinary, aromatic and medicinal herbs to produce an **INNOVATIVE PHYTOTHERAPEUTICAL PRODUCTS LINE** for healthy skin and hair.

## WHOLEVEG LINE

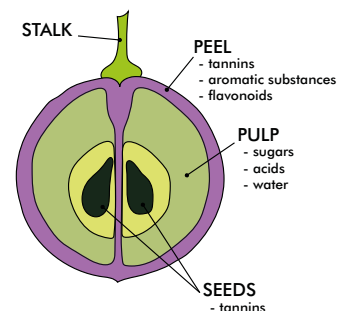

Inspired by the best tradition of the vegetable gardens, Akott designs a **GREEN PRODUCTS LINE** focusing on the precious nutrients and uncountable benefits of **FRESH VEGETABLES** for skin and hair using each single part of the plant: **PEEL, PULP AND WATER**.

## BIODYNAMIC AGRICULTURE METHOD

We strictly select fruit, herbs and vegetables that are grown with the **BIODYNAMIC AGRICULTURE METHOD**, that abolishes the use of synthetic mineral fertilizers and chemical pesticides, promoting the soil fertility and vitality following the cosmic and lunar cycles, for a total harmony among Nature, Earth and Men.

### WE USE ALL THE PARTS OF THE FRUIT, FROM PEEL, PULP AND WATER

The **GLOWFOOD® LINE** is the result of a careful nutritional study to deeply nourish the skin. **WHOLEFRUIT, WHOLEHERB** and **WHOLEVEG** products are natural, pure and healthy, not chemically modified, and treated to **preserve the content of antioxidants, vitamins, and healthy phytonutrients** that make your skin glowing.

## APPLE

Apple is harvested in autumn, between September and November.

The fresh fruit is particularly rich in polyphenols, powerful anti-free radical scavengers and cell protecting agents, and fruit acids with exfoliating, emollient, firming and moisturizing uses.

## BERGAMOT

Bergamot has many cosmetic properties, such as toning, bactericidal, whitening, firming and softening.

Its freshly squeezed juice is rich in polyphenols, flavonoids and vitamin C with marked antioxidant activity. The harvesting season runs from November to January.

## BLACK MULBERRY

Black Mulberry ripens in the late summer. This black to deep purple fruit is characterized by high levels of bioactive compounds, such as sugars, proteins, vitamins and minerals, and can be used to prevent the ageing process and improve the general condition of the skin.

## CONCORD GRAPE

**Concord Grape** is harvested from the second half of September to early October, when the fruit color is deep blue to purple.

The presence of precious bioactive compounds makes it suitable for cosmetic products with antioxidant, anti-aging, wound healing and calming properties.

## GRAPE

**Grape** comes in a range of colors and types.

It is typically harvested from late August to early October.

The fresh fruit is rich in flavonoids and proanthocyanidin complexes with potent free-radicals scavenging activity that protects skin cells from oxidation damages.

## LEMON

**Lemon** has a wide range of beauty benefits given its content of vitamins, minerals and citric acid. Apart from being a powerful antioxidant, it also has purifying and conditioning effects on skin. It can be added to anti-aging, brightening and deep cleansing products. Lemon is harvested throughout the year, with the best season being just after winter.

## PEAR

**Pear** is rich in precious macro- and micronutrients that make it one of the healthiest and most gentle ingredients. Its antioxidants prevent skin aging, its sugars smooth and improve skin elasticity, its vitamins and minerals are a beauty boost.

Pear ripening time goes from late August to early November.

## POMEGRANATE

**Pomegranate** is harvested from September to October.

The fresh juice of this superfruit is packed with macro- and micronutrients with notable skin compatibility.

The repairing, rejuvenating and replenishing effects give to the skin a natural radiant glow.

## RED ORANGE

**Red Orange** is a pigmented sweet orange variety typical of eastern Sicily. Its color is the result of the accumulation of anthocyanins and it stands out for the high antioxidant activity.

Red Orange is harvested in winter, when the content of health-promoting micronutrients is at the maximum level.
